

■ Wide application situations ■

Electric power industry	Fan impeller, burner turn-off core, material delivery tank and hopper inner lining, components of crusher, components of core mill, ash discharging pipe, air treatment system and conveyor, etc.
Steel industry	Hopper inner lining, grating, feeder and base, tipper, hopper, pipe, pump shell, components of crusher, slag discharging tank, all kinds of chassis and vibrating screen, etc.
Cement industry	Impact plate, pipe, pump shell, inner lining of the grinding machine, components of the crusher, slag discharging tank, all kinds of chassis and vibrating screen, etc.
Paper making industry	Cyclone inner lining, screw conveyer, material delivery tank and funnel, fan impellor, conversion conduit, transition elbow, etc.
Mining industry	Scaleboard of the cargo tank of the truck, hopper inner lining, inner lining of the material delivery tank, components of crusher, cover plate, wear resistant rod and wear resistant plate, etc.
Coal treatment industry	Material delivery tank, hopper, components of crusher and scaleboard, coal handling pipe, elbow, pump body, etc.
Glass industry	Raw material bin, baffle, adapter, end bushing, feeder, hopper, storage bin, backplate, scaleboard and wear resistant ring, etc.
Brick manufacturing industry	Grinding tools for brick making, etc.
